

DRIVER HUB

Fair judgment should be exercised when relating with drivers from our platform.

Discussions with drivers should be centered on their duties to serve you better and not on personal issues.

Drivers are only to be used for driving purposes and as stated within the confines and parameters of their job description.

All forms of assaults whether verbal, physical and sexual assaults are strictly frowned on. As professional drivers, they are

required to exercise car-care rights and drive you in safety, style and comfort.

Professionalism in its multifaceted disciplines entreats Client/Customer/Employer to properly consider suggestions,

contributions and advice that our drivers may proffer concerning car care, car commute, safety and comfort.

Due to the risky nature of the jobs carried out by our drivers, we unflaggingly ensure that our Client/Customer/Employer does

due diligence by comprehensively insuring their vehicles and/or at least third party insurance cover on the said vehicle.

Client/Customer/Employer must not give out gift or tip driver except if it relates to their servicedelivery.

Client/Customer/Employer must treat drivers as professionals and with respect, as we frown on maltreatment of any form.

Client/Customer/Employer must remain compliant to the terms and conditions which our professional drivers are bound to by not substituting job description with their own indulgence and whims.
